

One list, 180 players, sorted by VOR — the order you decide in. Replaces the fallback board, the late-RB sheet, the audition window, the analyst calls sheet and the injury spreadsheet. Cross off names as they go; take the highest row that fits your caps (QB2 / RB6 / WR6 / TE2). Generated Sep 07 2026, 19:17.

A PLAN FOR THE PAPER — the best two still plausibly on the board at each turn, walked in order. The live board decides with a rollout; this is what to aim at when the screen is gone.
